BenefitVision Cited in Top 10 Communication Solution Providers by HR Tech Outlook Magazine

Iselin, NJ, December 17, 2018 – U.S. Employee Benefits Services Group (USEBSG), a division of U.S. Retirement & Benefits Partners (USRBP), announced today that partner firm BenefitVision and CEO Ron Kleiman were featured in HR Tech Outlook’s December 2018 issue listing the country’s top 10 communication solution providers.

HR Tech Outlook is a publication focusing on the HR technology market, sharing innovative advances in human resources technologies and tools to improve productivity and effectiveness. In the article, Ron explains BenefitVision’s proprietary web enrollment system, WebACES, which is a co-browsing employee communication and enrollment system. It is a full-service offering in which a professional representative provides the employee with a concierge tour of their benefits to guide the employee through their enrollment session.

As a special honor, BenefitVision is featured on the cover of the magazine along with a full-length story about its unique communication solution. “We are particularly proud of this listing,” Ron noted. “Being on this list is an honor; being the subject of the cover story is truly noteworthy.”

“Having Ron as a Partner has been a terrific addition to our team. As one of the pioneers in the Employee Benefits communications market, BenefitVision brings great insight and perspective. We are proud to have them as part of USRBP,” said Mark M. Skinner, President & CEO of USRBP.
