

Bill Pearce

Chief Information Officer

The Retirement Plan Company

Bill Pearce joined The Retirement Plan Company (TRPC) in January 2016 as their CIO, responsible for setting the technological direction of the company and managing TRPC's global Development and QA staff.

Bill's entire 30+ year career is comprised of pension systems software development, beginning in 1984 developing the first in-house DC and DB administration systems for Tillinghast, Nelson & Warren (now part of Towers Watson). From 1996 to 2016, he served in various management capacities in the development of Corbel's industry leading Quantech pension administration system (now FIS-Relius), ending his tenure as Relius' Vice President of Software Development and head of their global Development groups.

Bill holds a Bachelor of Science in Software Development with emphasis on Business Administration from DeVry University Atlanta. When he's not working on pension systems, he's a professional sports photographer shooting at the collegiate, Olympic and professional levels.
