

THE BEACON

Benefits Education Administration & Communication ONline

A powerful platform for a complete benefits solution.

The **BEACON** brings employee benefits administration and enrollment to the next level with its integrated, cloud-based platform. It delivers intuitive design with robust functionality, making benefits program management easier while improving employee engagement and education.

Content library with 100+ educational videos

Turnkey Spanish translation

Customizable site & employer branding

Mobile device optimization

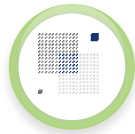

Call center & face-to-face enrollment options

Year-round communication

Decision-support functionality

Group & worksite product enrollment

A rewarding enrollment experience for employees with valuable insights for employers.

Employees value options. The BEACON offers choices for enrollment methods, personalized communication with our team of experts, as well as dynamic decision-support tools. Your employees will be able to select numerous educational content to engage in including over 100 videos and will have access to the online Financial Wellness platform — an online resource that was built to empower and educate employees in retirement and health care decisions.

Employers gain insights. With the platform's flexible and extensive reporting capabilities, you'll have the insight needed to understand organizational trends and manage your benefits with efficiency and ease.

INTUITIVE DESIGN • ROBUST FUNCTIONALITY • VALUABLE INSIGHTS
